## Daniela is building futures through migration...

After studying Business Management at Southern New Hampshire University, she now works as an Immigration Worker at Global Migration SA, helping other refugees build bright, dignified futures in their new communities.

### GMI Graduate 2024

Southern New Hampshire University USA

# Who we are

Global Mentorship Initiative (GMI) is a US-based global nonprofit transforming the lives of young professionals from underrepresented communities through structured, short-term mentorship programs.

By connecting graduates with experienced business professionals, GMI bridges the gap between education and meaningful careers, fostering a more equitable global workforce and advancing UN Sustainable Development Goals for Decent Work and Reduced Inequalities.

## GMI Supports UN Sustainable Development Goals:

## Aya is driving the economic revolution in Lebanon...

After earning her Business Administration degree, she's excelling in financial reporting while pursuing a Master's in Finance. Through her leadership and community work, Aya is fostering collaboration and supporting Lebanon's path to prosperity.

### GMI Graduate 2024

University of Saint Joseph  
Lebanon

# A Letter from the CEO: Jon Browning

What an incredible journey we have shared this year! When GMI first began, we envisioned a small program with a big purpose: to bridge the gap between education and career opportunities for those who need it most. As I look back, it's awe-inspiring to see how we've grown from just a handful of mentees to a thriving global network impacting thousands of lives.

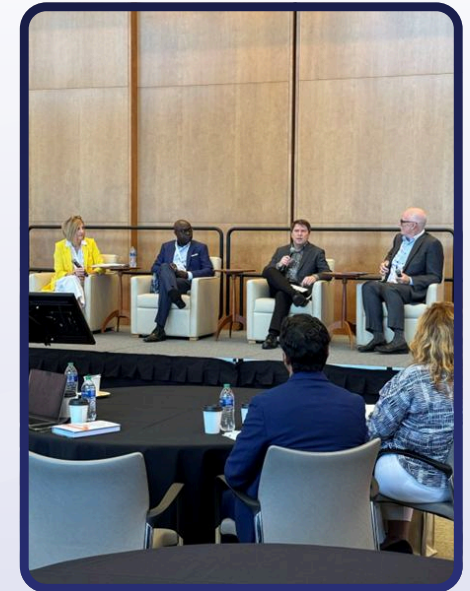

We started 2024 with steadfast goals to amplify our reach, stabilize our progress, and prepare for the ambitious Vision 2030 project. Our mission remains unchanged—ensuring that where you're born does not define the opportunities you can pursue. Every day, our commitment is reaffirmed as universities, non-profits, and companies reach out, eager to partner with us in unlocking potential for young professionals worldwide. And today, thanks to our combined efforts, we're one step closer to connecting 250,000 graduates from underserved communities with career paths by 2030.

This year has brought many key achievements, from doubling the number of students served to launching AI tools that help mentees navigate the job market more effectively. These innovations are more than just enhancements; they represent our dedication to staying ahead in a rapidly changing world, ensuring every student is equipped to succeed.

To our partners, mentors, donors, and supporters, you are the lifeblood of this mission. Your trust and passion are what drive us forward. Together, we are not only connecting individuals to careers but also reshaping the global workforce to be more inclusive and diverse. Each success story—each student who gains confidence, each mentor who shares their time, each company that opens doors—reinforces the power of mentorship and the transformative potential within all of us.

Thank you for being part of this journey.

Together, we're not just envisioning a brighter future; we're building it!

Jon Browning speaking on "*Leveraging Unconventional Talent*".

# Year in Review

## In 2024...

GMI grew to a global **student community of nearly 10,000**, reaching new regions and supporting high-demand areas such as South Africa and refugee communities.

## Forbes Features GMI's Partnership with Microsoft

# What We're Building

## Our Mission

GMI bridges the gap between graduation and first career jobs for underrepresented young professionals from diverse communities. Through leveraging digital resources, mentorship, AI, and human connection, we are building a more equitable workforce of tomorrow's leaders.

## GMI's Theory of Change

GMI is creating a world where every young professional, regardless of background, has the opportunity to thrive in a meaningful career, building a more inclusive, equitable, and innovative global workforce.

## Sostène is transforming green energy in West Africa...

As a Mastercard Scholar and Student Energy Community Manager, he's championing African-led climate resilience and inspiring others to join him.

**GMI Graduate 2024**

Université d'Abomey-Calavi  
Benin

Meet Sostène 

74%

of GMI students are employed within six months of graduating from their educational program.

93%

of non-refugee GMI students are hired within their home country, contributing to local development.

82%

of GMI students say the program was important in getting them hired.

98%

of GMI students are confident they can reach their career goals after their mentorships.

92%

of GMI students are confident they can successfully find a job in their chosen field.

# GMI's Vision 2030

GMI envisions a world where every young person, regardless of where they are born, can access meaningful career opportunities. By 2030, we aim to connect 250,000 students and refugees from underserved communities with jobs, empowering them through scalable mentorship programs that address systemic barriers to employment.

This bold vision includes targeted efforts to expand mentorship for **refugee learners, women in STEM, and climate leaders**, alongside innovative technological solutions. New delivery models, including classroom integration and multilingual mentorship, will ensure we reach students who wouldn't otherwise have access.

GMI also collaborates with business partners to provide direct job connections, preparing students for high-demand fields like cybersecurity, software development, and financial services. Achieving these goals requires a collective effort, and we invite partners, investors, and supporters to join us in transforming career opportunities for underrepresented youth. Together, we can build a diverse, inclusive, and resilient workforce that drives global progress.

## Daniella is bridging worlds...

After graduating from Ashesi University, she joined Bank of America in Ireland, now excelling in her role, volunteering with the African Professional Network of Ireland, and preparing to launch a nonprofit to guide young Ghanaians.

**GMI Graduate 2022**

Ashesi University

Ghana

### New Delivery Models

Leverage local partners and educators to scale across schools and languages.

### Technological Innovation

Deepen thoughtful use of AI and tech solutions to scale and bridge language or access gaps.

### Career Connections

Collaborate with our global network of hiring and training partners to drive recruitment.

### Targeted Expansions

Focus on supporting refugee learners, women in STEM, climate leaders, and underserved youth.

# Growing Support of Displaced Learners

Working  
together

Since our program's beginning we have supported **675 displaced and refugee learners globally**. In 2023, GMI joined UNHCR's global network, pledging to mentor 1,000 displaced learners and assist impact partners in hiring at least 250 refugees. Collaborating with USA for UNHCR, GMI launched a pilot program connecting 50 displaced learners with mentors from UNHCR's supporter base. This mentorship focuses on enhancing career readiness, soft skills, and confidence, aiming to replicate GMI's success rate where 74% of graduates are hired within six months. [Learn more](#)

# From Mentee to Mentor

When GMI launched in 2020, we envisioned a global community where young graduates would be supported in finding stable, fulfilling careers and, with a few years of experience, return to serve as mentors themselves. **So far a total of 6 Program Graduates** have returned to work with a GMI Student of their own. **We are proud to share their stories!**

## Esther

Meet Esther

Kenya

Since completing her mentorship in 2023, Esther has continued to support GMI’s mission. Leveraging her expertise in data science and public policy, she has co-presented with GMI and fostered partnerships to empower Kenyan youth through employment. In 2024, she mentored a student from her alma mater, the University of Nairobi, sharing her insights on navigating global environments and making strategic career decisions.

## Demyia

Meet Demyia

USA

Demyia, a 2024 GMI Program Graduate, has returned to the program as a mentor, now supporting two students in Kenya and the USA. With a strong passion for career counseling, mentorship, and mental health advocacy, Demyia empowers others to achieve their full potential, leveraging her diverse expertise in education, public relations, career services, and trauma support, particularly for women and children.

## Millicent

Meet Millicent

Kenya

After successfully completing her GMI mentorship last year, Millicent has returned to GMI to share her experience and is now mentoring a sustainability student based in India. At the same time, she is championing her own global initiatives in clean energy and sustainable practices. Committed to advancing gender equality and impactful SDGs, she collaborates with organizations to address climate challenges and foster greater equity in communities worldwide.

# Mentor Impact

In 2024, GMI welcomed 3,000 new mentors to our program, pushing our community beyond the 7,500-mentor milestone. This achievement would not have been possible without the dedication of our community members, who go above and beyond to support our students through mentorship and continually seek new ways to contribute to our mission. **To all our mentors, thank you for making 2024 a year of growth and meaningful connections!**

## Total Mentor Registration by Region

North America: 3,109  
Asia: 1,341  
Europe: 1,219  
Africa: 1,085  
MENA: 373  
LATAM: 170  
Caribbean: 64

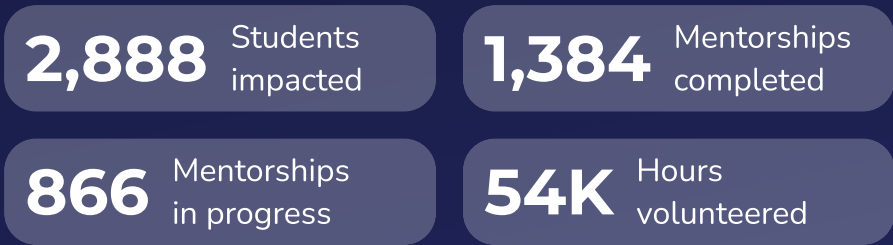

## Meet Deep...

Reflecting on his mentorship experience with GMI, Deep shares: “Over the course of 12 weeks, I had the honour of mentoring two incredible individuals from completely different cultures and career aspirations. This experience was both humbling and enriching.”

## 2024 Highlights

## Mentor Count

## All-time Top Mentor Providers

# GMI Partner Network

Corporate partnerships are essential to advancing our mission. Our network of corporate partners and collaborators not only provides thousands of dedicated mentors to guide our students, but also support our mission through funding, services and hiring opportunities for our students.

Microsoft continues to be GMI's largest sponsoring partner and provider of mentors. In 2024, GMI and Microsoft worked together to upskill **Cybersecurity** and **Data Center Academy** students. We also co-developed a reinforced mentorship track with **ADC WINS** to recruit and retain young women in STEM in Kenya.

Think Human Fund, funded by **Concentrix**, is sponsoring a pilot to provide mentorship to **Aspiring Climate Leaders** from the Global South, as well as providing funding and in-kind support to complement traditional mentorship with **custom AI tools**.

As a member of LinkedIn's **Global Impact Partner Program**, GMI and LinkedIn are working together to support students worldwide. Not only has LinkedIn generously provided hundreds of GMI students with free **LinkedIn Premium** access, but volunteer LinkedIn mentors also offer our students unique insights into the world's largest professional network.

Orange and Foundever officially joined GMI as joint partners in 2024, sponsoring **250 French-language mentorships**. We are honored to be the first global partner of Foundever.org's **#CXforGood** initiative.

GMI is thrilled to partner with Expedia Group and their ACE (Asian Community at Expedia) IBG (Inclusion Business Group) to mentor underserved students across Asia and beyond. In 2024, Expedia sponsored **100 mentorships** and launched an **Ambassador Program**, encouraging mentors to advocate for GMI's mission in their regions.

In addition to sponsoring **100 mentorships**, First Advantage provides background check services on potential mentors. In 2024, First Advantage generously provided this service outside the US free of charge, helping to support a more global mentor pool.

# GMI Mentors Hall of Fame

.....

This year, GMI is proud to introduce three outstanding mentors—Bev Cornish, Channa Kumarage, and Yuki Loh—each of whom has mentored **10 or more students**. We are thrilled to celebrate their achievement and thank them for their exceptional commitment to mentorship.

## Beverley

Meet Beverley 

 USA

Bev Cornish, a proud University of the West Indies alumna, virtually joins the celebration of UWI graduates each year. Since 2021, she has also cheered for 13 GMI mentees she has guided into the workforce. “UWI shaped me, and now I help students turn knowledge into workplace readiness. They’re all a joy and lifelong connections.”

## Channa

Meet Channa 

 USA

Channa Kumarage, a University of Colombo alumnus, has taught at universities in the USA and Sri Lanka. He also manages **SVP Sri Lanka**, a nonprofit that has supported over 2,000 students in the past 25 years. Since 2020, he has mentored **11 GMI mentees**, using his teaching experience to help students secure their ideal job after college.

## Yuki

Meet Yuki 

 Malaysia

Yuki Loh, a dedicated professional at GMI partner Clarivate, has mentored **10 GMI students**. Drawing from her extensive experience in relationship-building, Yuki helps mentees bridge the gap between education and career readiness. “Being a mentor has taught me the value of collaboration and the importance of giving back.”

# GMI's Gold Mentors

GMI prides itself on creating an easy-to-follow and engaging program for students and mentors alike. **74% of GMI mentors choose to mentor at least two students.** This year, GMI celebrated a remarkable milestone: **168 Gold Mentors who have each completed at least three mentorships!**

# Partnerships and Recognitions

## Building Futures in Washington State – The Connell Family Fund Partnership

In 2024, GMI partnered with the Connell Family Fund to create clear pathways to employment for underserved students in Washington State. This initiative aims to enroll 400 students from 10 technical and vocational colleges in King County by October 2025.

The program connects students with mentorship, industry-specific training, and direct employment opportunities in fields like technology and healthcare. By aligning GMI’s mentorship model with the needs of Washington’s workforce, the initiative ensures students are prepared to succeed.

- **400 Students by 2025:** Focused outreach to underserved students across King County.
- **Local Collaboration:** Partnerships with 10 colleges to identify and support students.
- **Career Opportunities:** Employer partnerships to create seamless education-to-employment transitions.
- **Local to Global:** Establish a high school to employment pipeline which can be replicated globally.

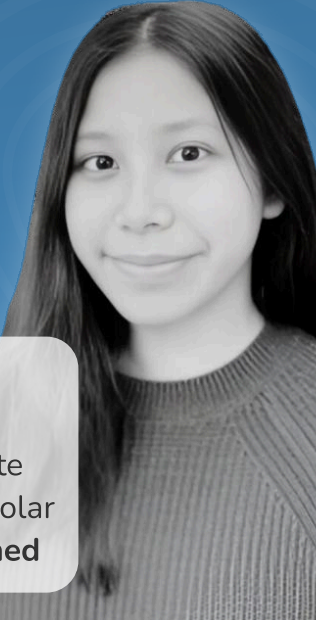

The Connell Family Fund’s generosity makes this initiative possible, bridging the gap between potential and success for Washington’s students. Together, we are building a brighter, more inclusive future.
